	First saw E/A at 1500 yards. There were 12 of them. One E/A started ming up toward our A/C at 700 yards and I immediately opened fire on him.
E/	A came to within 500 yards and I let him have 3 bursts between 700 and 500 rds. (75 rounds.) At 500 yards black oily smoke began to stream out of
en	gine, flames began to shoot out of left side of engine and E/A peeled off his left and went straight down. Couldn't watch him any longer because of
	eoccupation with other E/A.
